POLAND LOGISTIC GATE OF EUROPE

Deepwater seaports.
Direct worldwide connections.

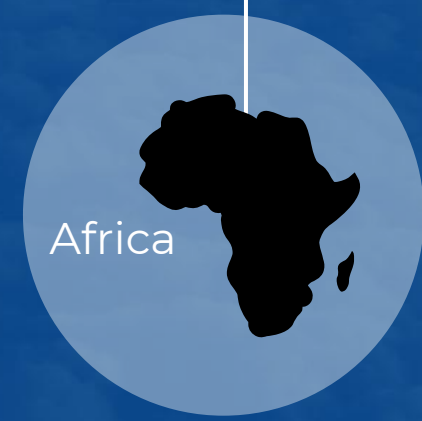

Regular lines between
Scandinavian and Polish ports.

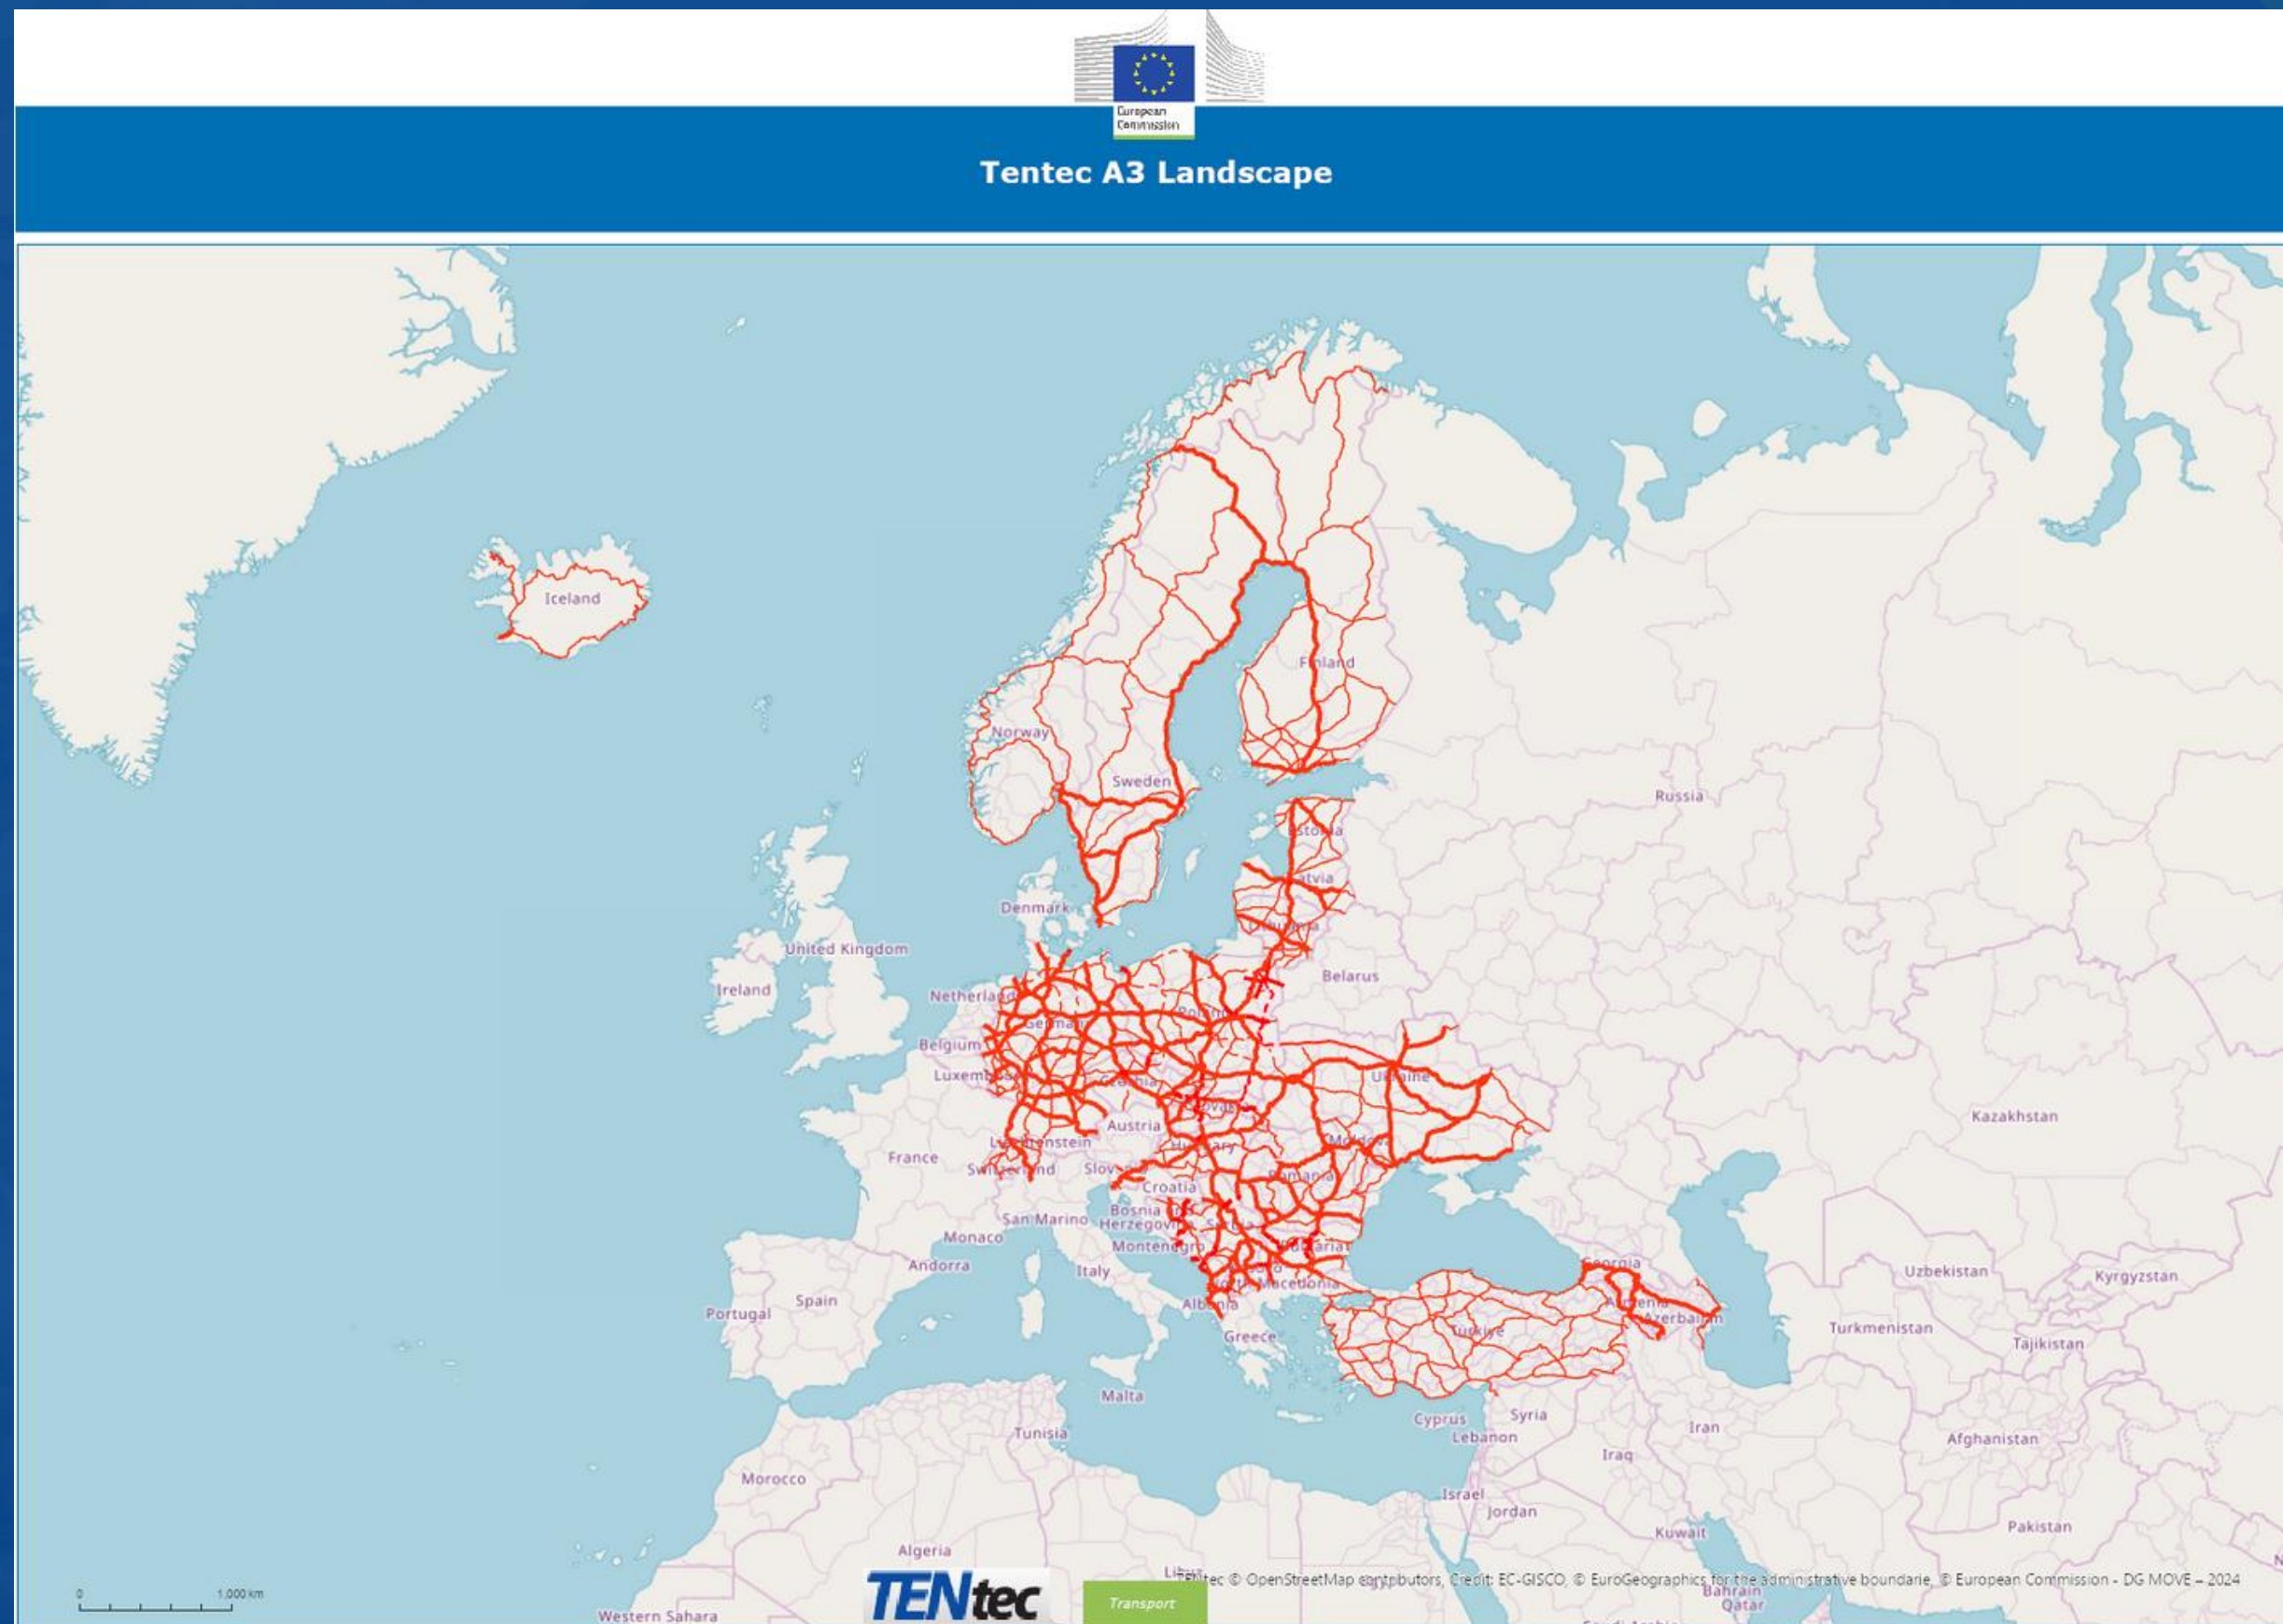

Intermodal terminals.
Scheduled connections with Europe.

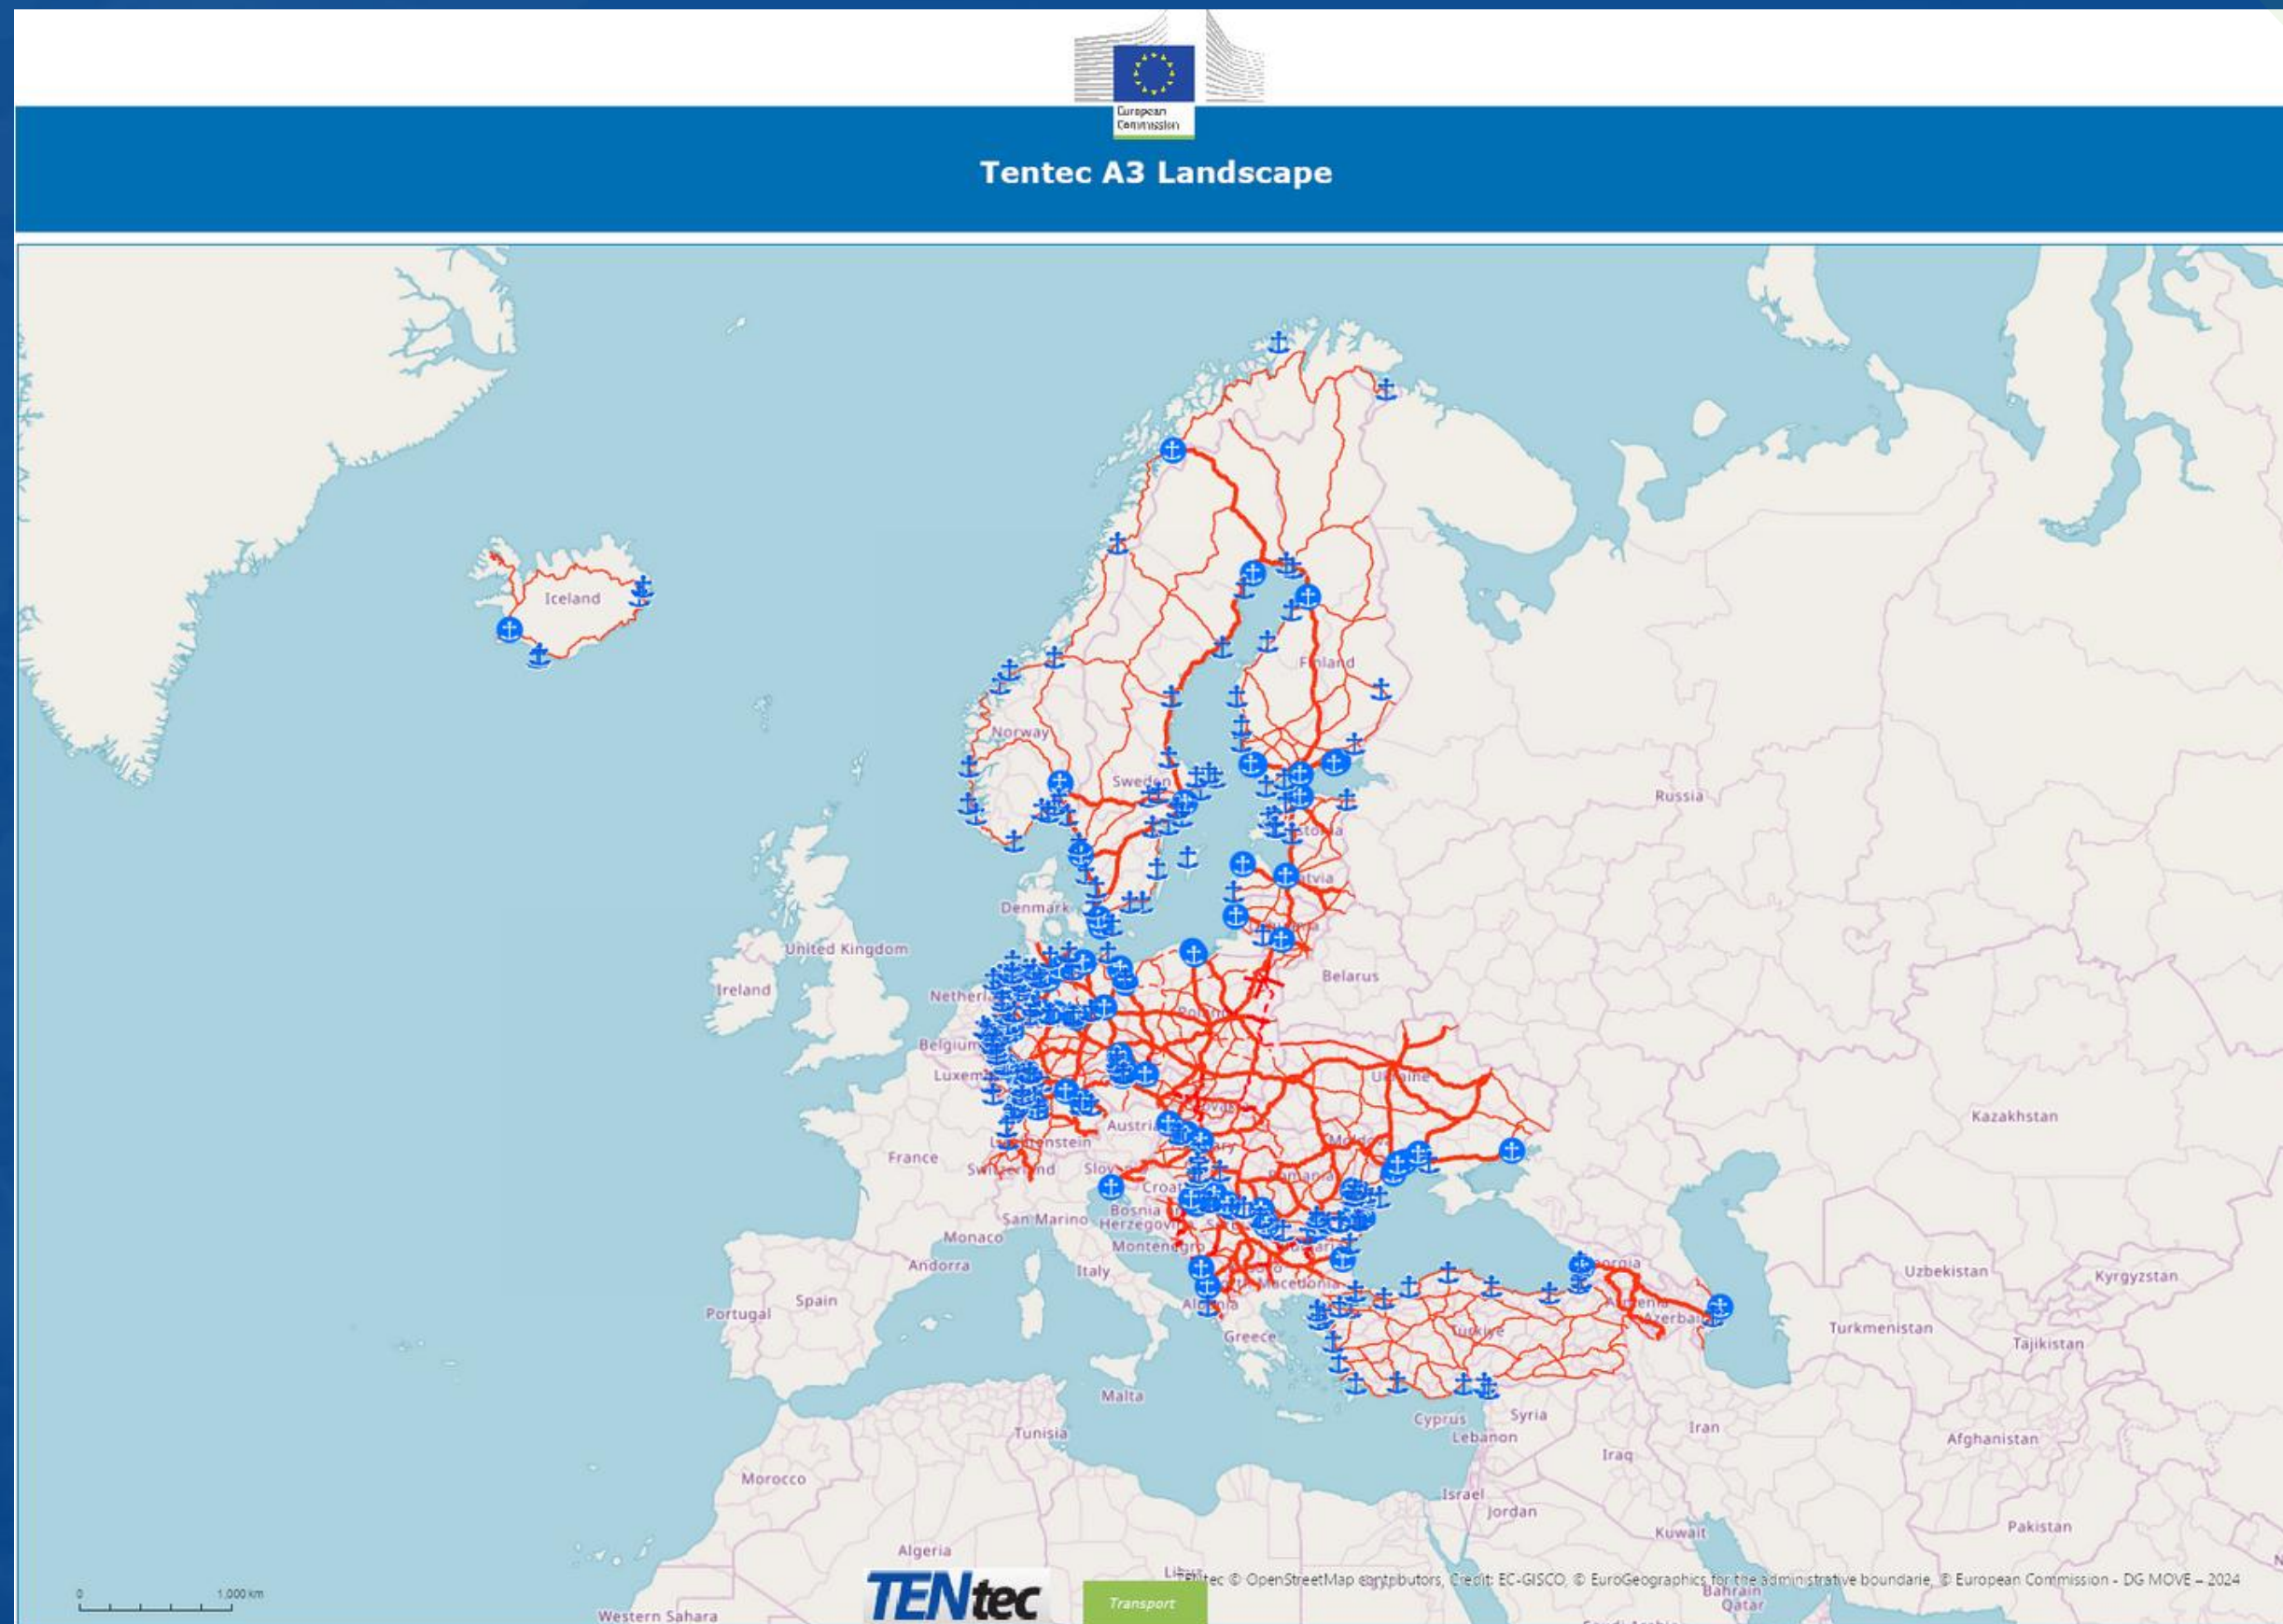

The most central logistic hub in Europe.
N <-> S and W <-> E corridors.

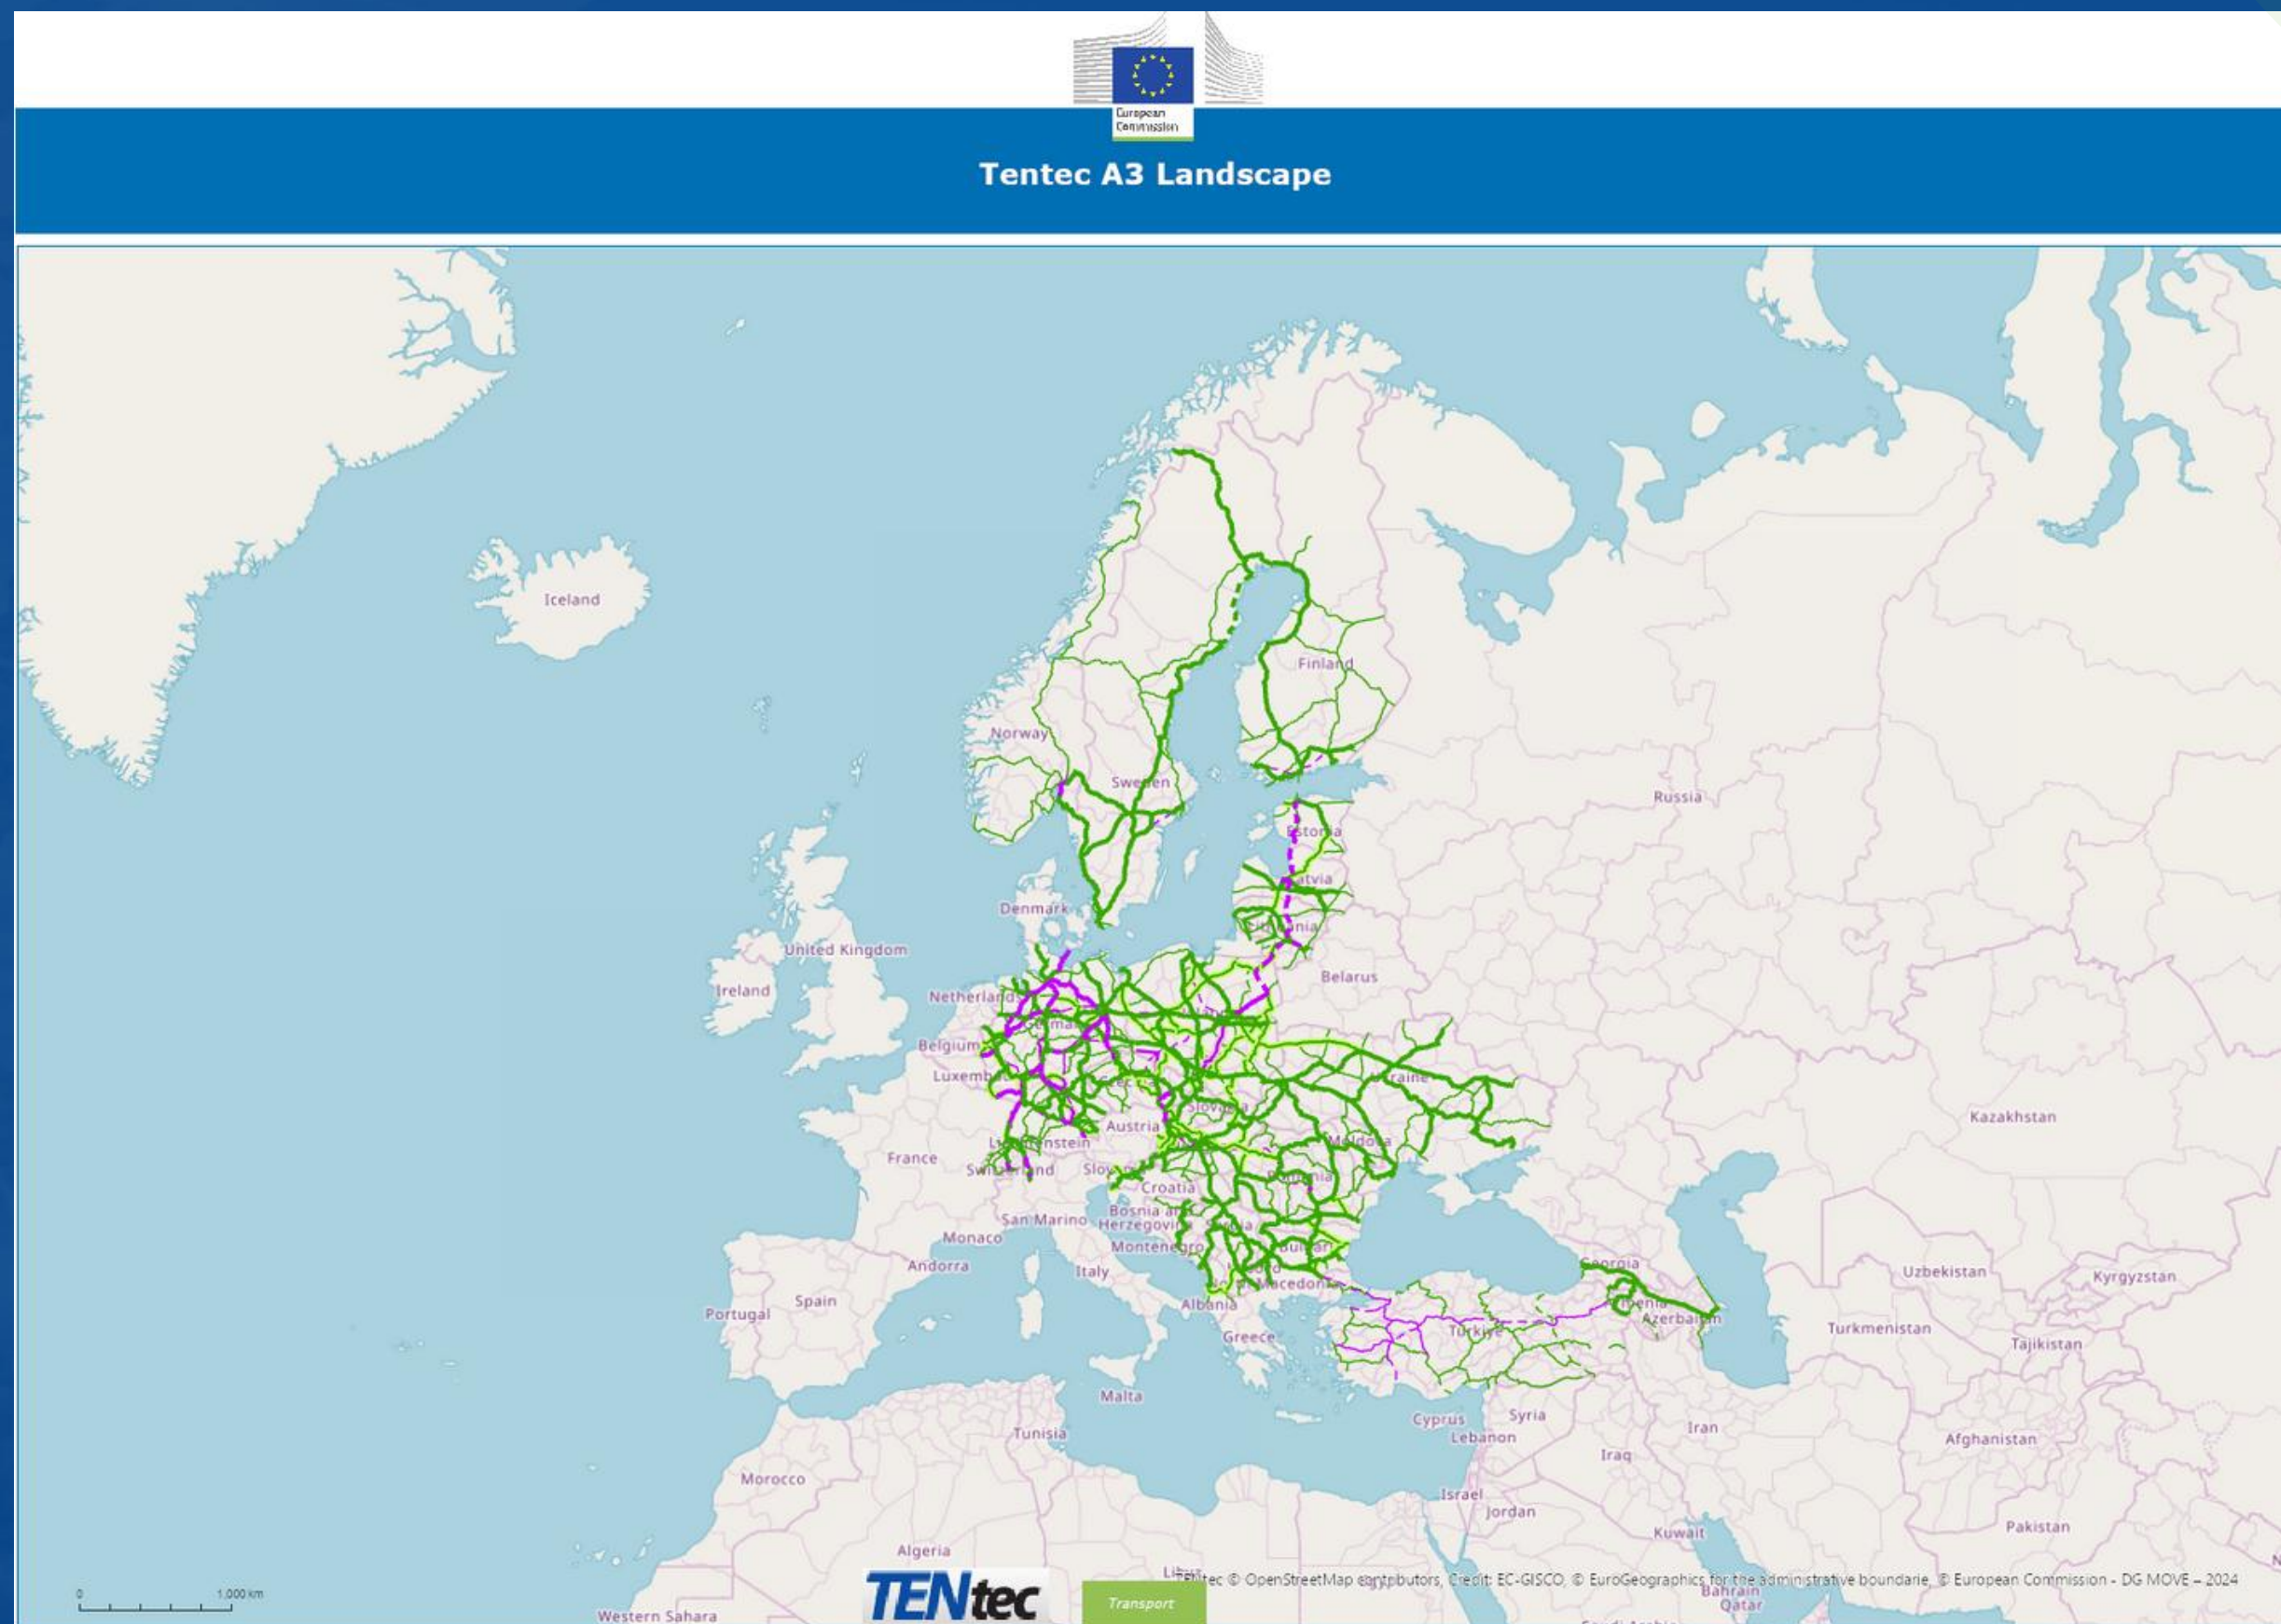

TEN-T NETWORK (ROADS)

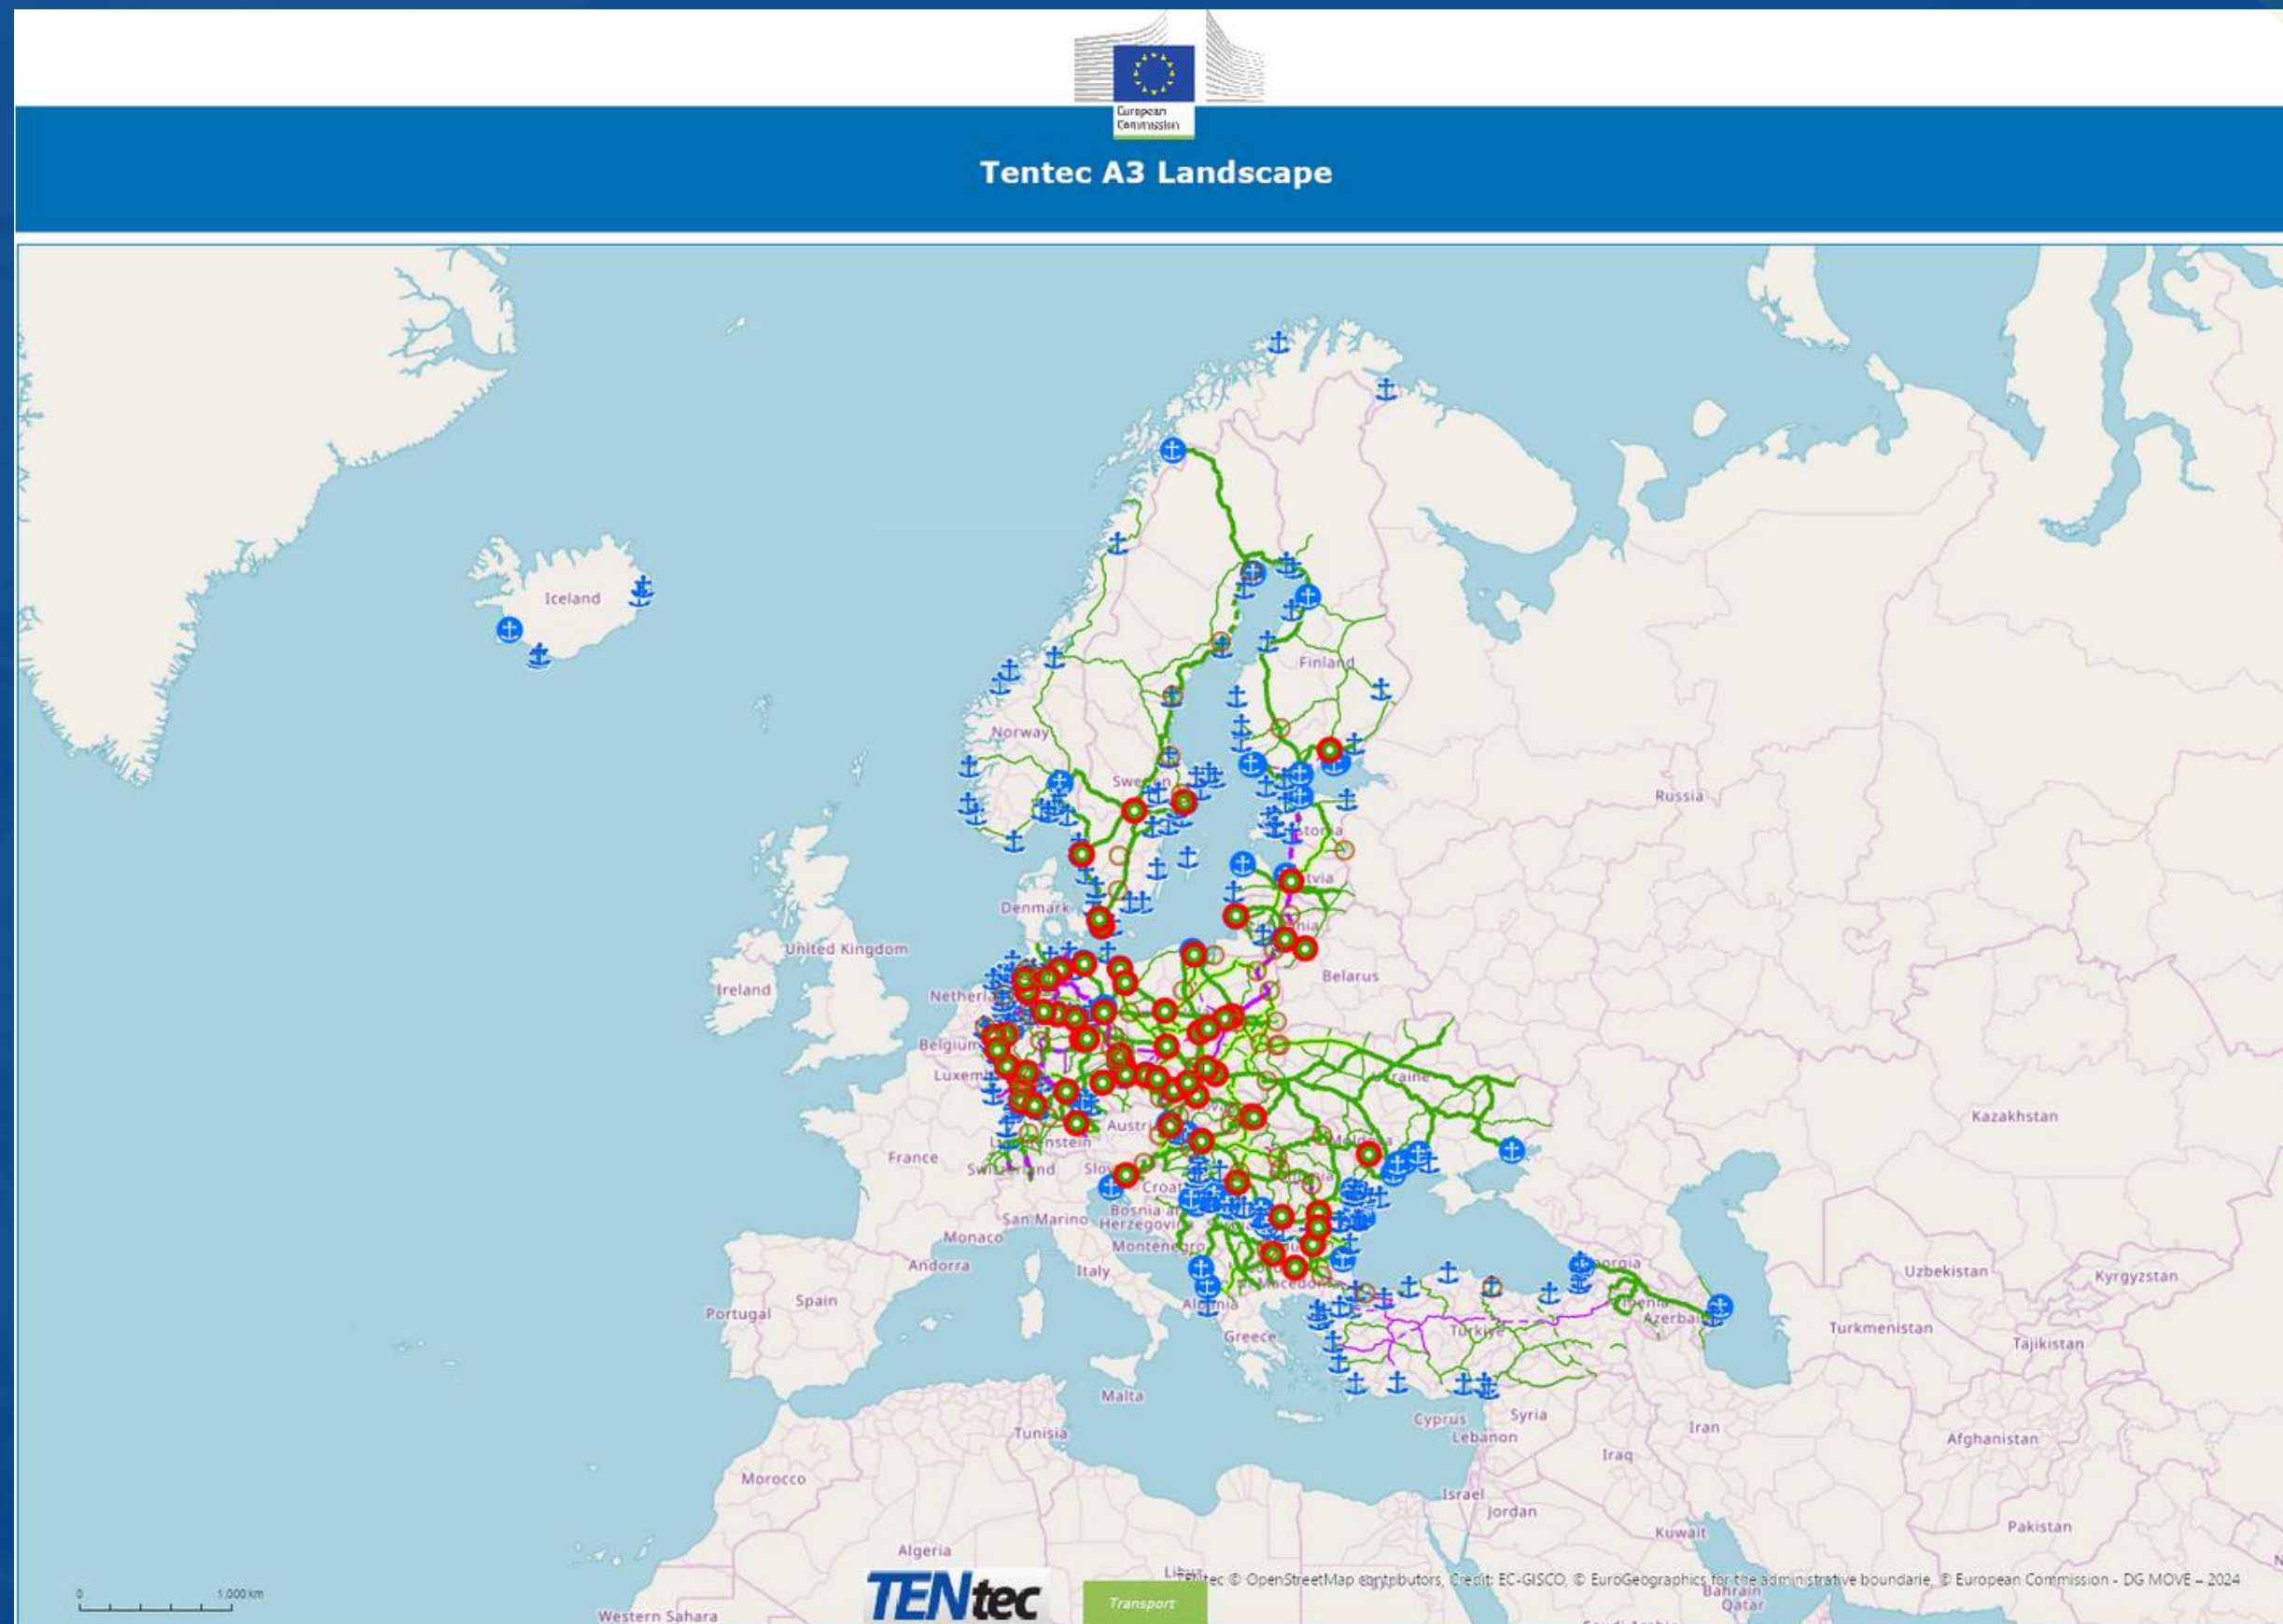

TEN-T NETWORK (ROADS AND SEA)

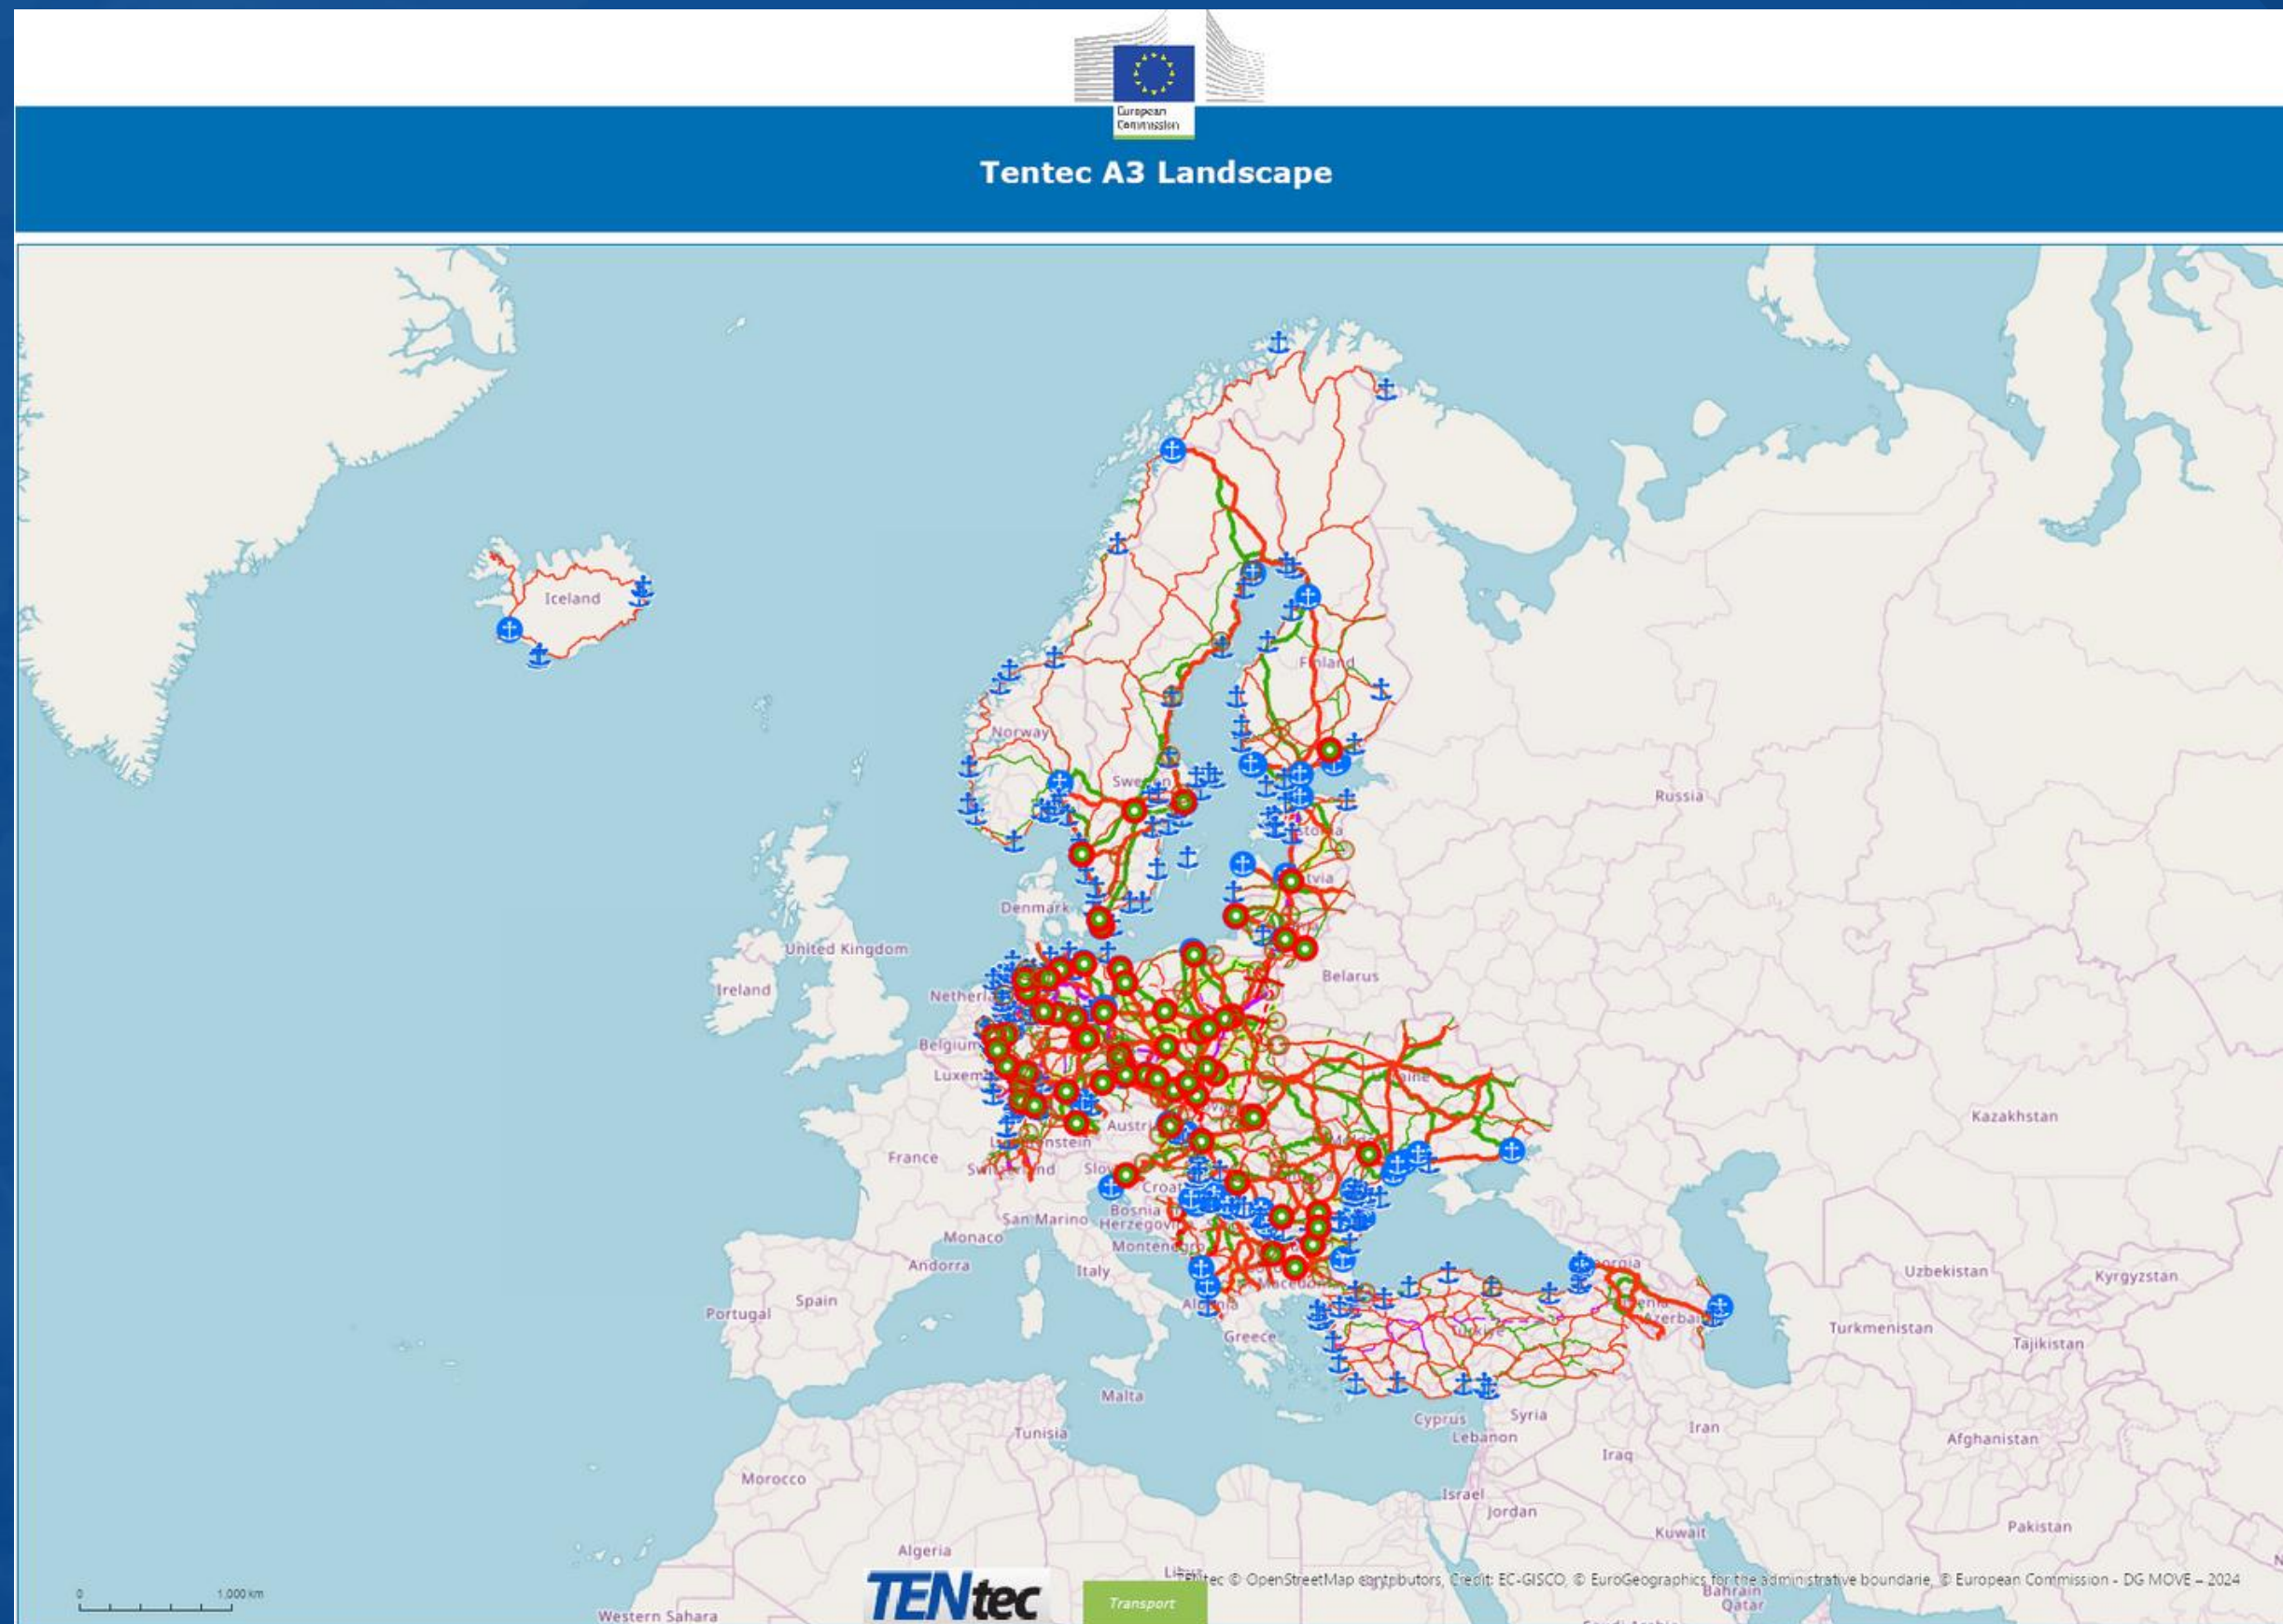

TEN-T NETWORK (RAIL)

TEN-T NETWORK (RAIL, SEA, INTERMODAL)

TEN-T NETWORK (ROADS, RAIL, SEA, INTERMODAL)

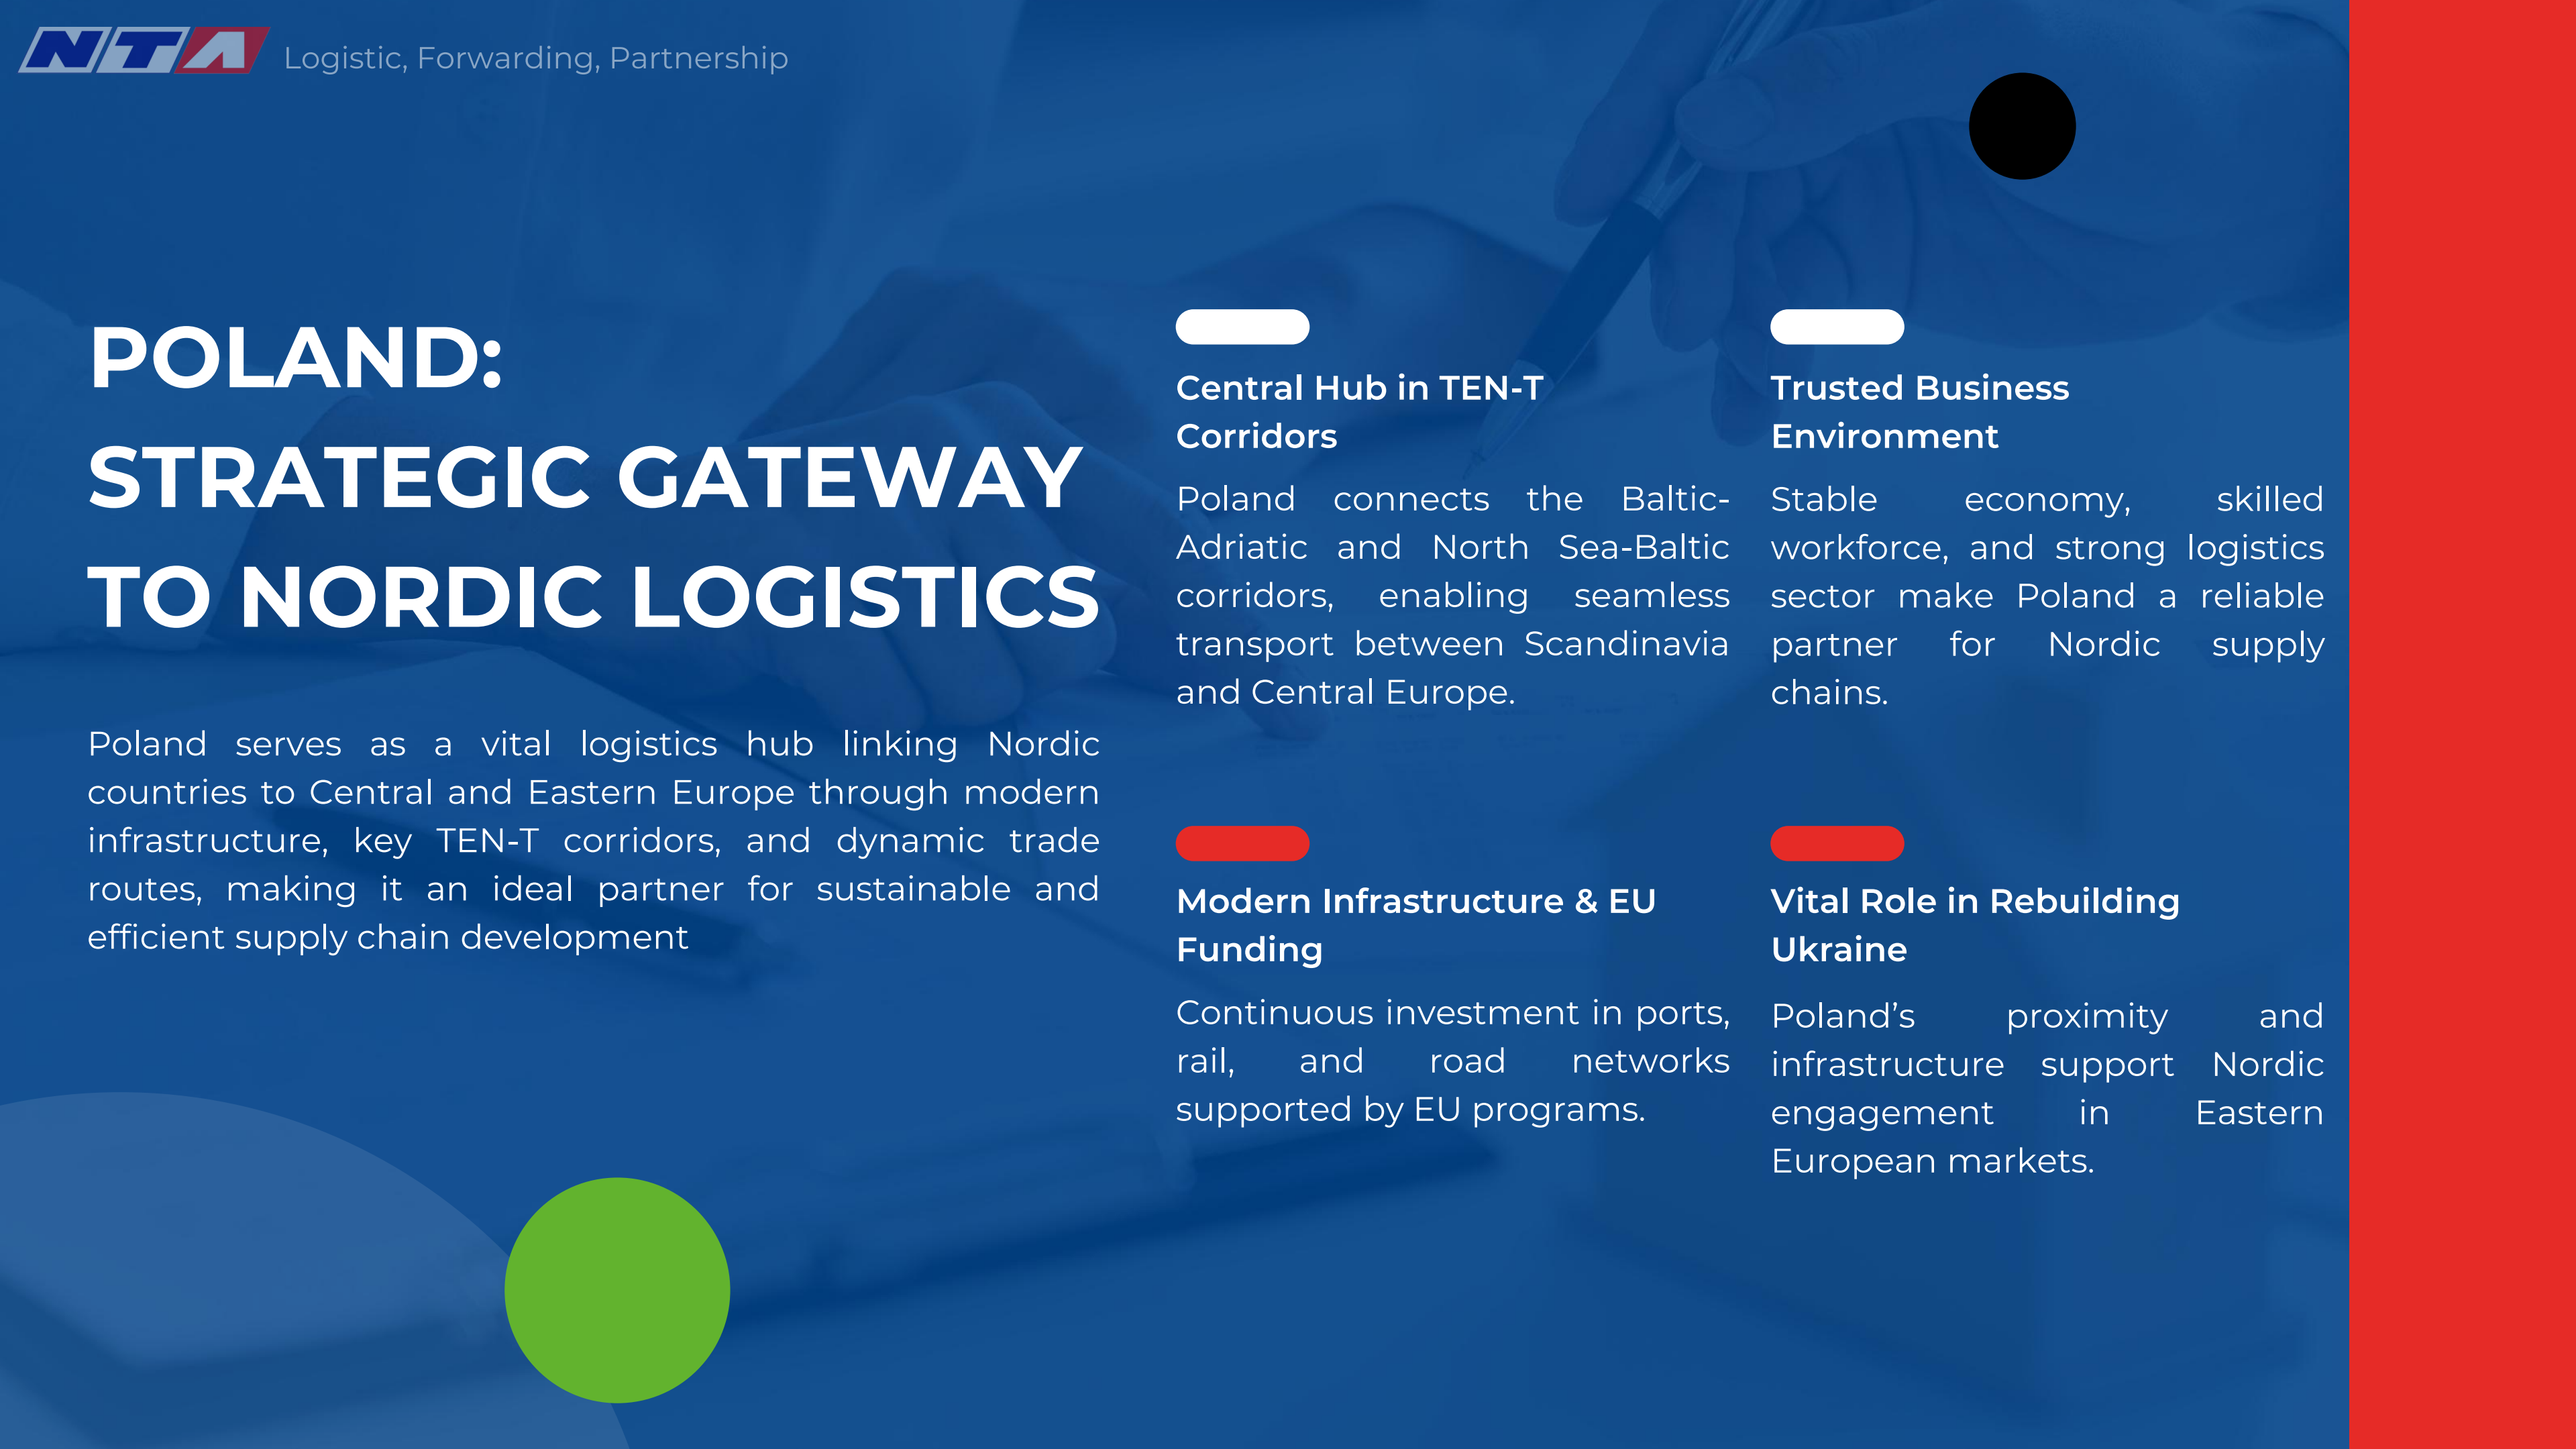

- The CEE region has a combined population of over 187 million people.
- Poland alone is the largest consumer market in CEE, with a population of around 38 million, and is increasingly affluent and digitally engaged.
- Competitive tax policies, EU regulatory alignment, and political stability make CEE a safe and attractive investment destination.
- The region boasts modern highways, railways, ports, and airports, supporting fast and reliable transport. Investments in Poland make it a key logistics gateway
- Poland acts as a bridge between Western Europe and Eastern markets, including Ukraine and the Balkans. Its proximity to the Nordic region and integration into EU transport corridors (like TEN-T) ensures efficient multimodal logistics.

CENTRAL-EAST EUROPE REGION

The way for cooperation

Central and Eastern Europe, with over 180 million consumers and rapidly growing economies, offers Scandinavian businesses a dynamic market for transport, logistics, and investment.

POLAND: STRATEGIC GATEWAY TO NORDIC LOGISTICS

Poland serves as a vital logistics hub linking Nordic countries to Central and Eastern Europe through modern infrastructure, key TEN-T corridors, and dynamic trade routes, making it an ideal partner for sustainable and efficient supply chain development

Central Hub in TEN-T Corridors

Poland connects the Baltic-Adriatic and North Sea-Baltic corridors, enabling seamless transport between Scandinavia and Central Europe.

Trusted Business Environment

Stable economy, skilled workforce, and strong logistics sector make Poland a reliable partner for Nordic supply chains.

Modern Infrastructure & EU Funding

Continuous investment in ports, rail, and road networks supported by EU programs.

Vital Role in Rebuilding Ukraine

Poland's proximity and infrastructure support Nordic engagement in Eastern European markets.

NTA INTRODUCTION

Founded in Gdynia in 1993, NTA has grown into a strategic logistics partner connecting Finland, Poland, and global markets.

With deep roots in the region and a forward-looking approach, we deliver smart, reliable solutions across borders every day.

Mission Statement

We combine experience with modernity, delivering comprehensive logistics solutions that support the growth of our Partners in a dynamically evolving Europe.

OUR GLOBAL NETWORK

Connecting You to the World

Daily shipments arranged with well known partners from Global Networks

Focused on Scandinavian and CEE markets.

Extensive worldwide network of partners.

Main activities in key markets and regions.

Global partnerships.

OUR SERVICES OVERVIEW

Comprehensive Logistics Solutions

Sea, air, rail, and road transport, supported by a nationwide network of Class A warehouses and an in-house Customs Agency.

We specialize in intermodal transport, contract logistics, and the handling of bulk, oversized, and sensitive cargo across industries such as paper, timber, chemicals, and general goods.

**Freight
Forwarding**
